MyLabOne offers impressive image quality in a compact design. These features, combined with dedicated presets and an extensive range of probes, make the system the ideal solution for your daily routine.

Customizable workflow

Thanks to the compact design and integrated long-life battery, MyLabOne can easily and quickly be taken wherever ultrasound is needed, from departments to bedside.

The wireless connectivity standard integrated in the MyLabOne offers the unique possibility to archive exams and receive patients' information wirelessly between procedures; minimizing the time required for exam and patient data management.
